I hereby understand that my **Texas Landscape Irrigation Auditor Certification** with the **EPA WaterSense Label** is only valid for a period of 2 years. To renew my **Texas Landscape Irrigation Auditor Certification** with the **EPA WaterSense Label**, I must:

- 1) complete 8 hours of continued education through Texas AgriLife Extension Service-School of Irrigation Program, and
- 2) provide documentation of completing at least 1 Irrigation Audit (containing minimum 2 stations/zones). Audit must be completed after the date on my certification.

Documentation should consist of a short audit report, containing the following information:

- Name and address of the person for whom the audit was conducted and the location of the audit (or a completed *Audit Cover Sheet*)
- Results of a visual inspection of the irrigation system for problems (a completed *Site Inspection Form* or a map identifying problems with the irrigation system).
- Copy of the field data collected (or a completed *Field Data Form*) and a site map. Include soil depth and pressure readings.
For the meter method, include all meter readings and areas.
For the catch can method include a diagram of the catch can layout and all catch volumes.
- Copy of the Recommended Irrigation Schedule resulting from the audit.
